PX42/PXM42 Series

- Stainless Steel Construction
- For Processing and Industrial Applications
- Large Flush Diaphragm for Plug-Free Measurement of Difficult Fluids
- 3 m (10') Cable with Conduit Connection on Body for Installation in Harsh Environments
- 🛩 4 to 20 mA

OMEGA's PX42/PXM42 are highaccuracy, current output, industrial pressure transmitter with a specially designed flush diaphragm for use with industrial fluids and slurries that are difficult to measure because of sticking or plugging of orifices. Their hermetically sealed, all stainless steel construction makes them suitable for the harshest industrial environments.
