

# Accessories for Glass Thermometers

## GTA Series

### Open Face Armor Case

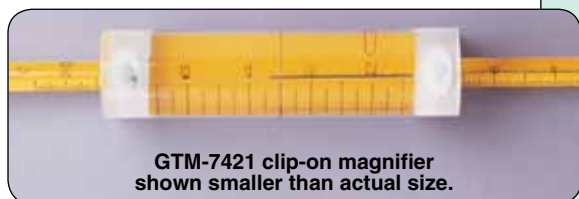

OMEGA® glass thermometers can be armored for added protection. The open face case is  $\frac{25}{64}$ " diameter and made of attractive, durable plated brass. The lower end is perforated to permit free heat passage. The face is open so the protected thermometer can be read without removing it from the case. Stainless steel sheaths are also available in 305 mm (12") and 406 mm (16") lengths.

To Order		
Model No.	Length mm (inch)	Material
GTA-6106BR	152 (6)	Brass
GTA-6109BR	229 (9)	Brass
GTA-6110BR	254 (10)	Brass
GTA-6112BR	305 (12)	Brass
GTA-6112SS	305 (12)	Stainless
GTA-6114BR	356 (14)	Brass
GTA-6115BR	381 (15)	Brass
GTA-6116BR	406 (16)	Brass
GTA-6116SS	406 (16)	Stainless
GTA-6118BR	457 (18)	Brass
GTA-6120BR	508 (20)	Brass
GTA-6124BR	610 (24)	Brass

Ordering Example: GTA-6112SS, 305 mm (12") stainless steel sheath.

## GTM Series

### Magnifiers

Two types of magnifiers are available: a reading lens that clips onto the thermometer and a hand lens. The 3" plastic magnifier clips directly onto the thermometer and provides a useful reading aid. The handheld lens is  $2\frac{1}{4}$ " long by 1" in diameter. The focal length is 3", field diameter is  $\frac{3}{4}$ ", magnification is 6x. This lens is excellent for estimating intergraduations.

To Order	
Model No.	Description
GTM-7421	Clip-on magnifier lens
GTM-7425	Hand lens with case

Ordering Example: GTM-7421, clip-on magnifier lens.
