

# Tubular Glass Thermistor Sensors For Immersion Temperature Measurements

**ON-404-PP**

- ✓ Chemically Inert for Liquid Immersion Use
- ✓ Can Be Used for Thermal Titration Studies and Measurement of Freezing Points
- ✓ 127 mm (5") L Pyrex Probe and 3 m (10') of PVC Cable Insulated and Jacketed Cable with Phone Plug Connector Standard

**To Order Visit [omega.com/on-404-pp](http://omega.com/on-404-pp) for Pricing and Details**

Model No.	Resistance @ 25°C	Interchangeability @ 0 to 70°C	Cable Termination
ON-404-PP	2252 Ω	±0.1°C	Phone plug

## Accessories

Model No.	Description
450-ATH	Handheld thermometer, thermistor input
HH41	Handheld thermistor thermometer
HH42	Handheld thermistor thermometer with RS232 communications

**Ordering Example:** ON-404-PP, tubular glass immersion thermistor sensor, 2252 Ω at 25°C, interchangeability of ±0.1°C, 3 m (10') of PVC insulated and jacketed cable and phone plug connector.
