

Thermocouple Instrumentation Calibration Kit

Kit includes TRCIII, TRP thermocouple reference probes, TRP-PT-NIST, CA71 Series, EXPP thermocouple wire, banana plugs, spade lugs, thermocouple reference table book, and instruction manual.

TICK-1B

For Complete Details Visit omega.com/tick

Total System Accuracy Within Less Than 1°C
Includes ice point™ Reference, DMM, Voltage Standard, Reference Thermometer, and Accessories
Calibrates All Thermocouple Instrumentation with 0°C Reference Junction Reference Probes Included for J, K, T, E Thermocouples; Also Available for Platinum-Rhodium and Tungsten-Rhenium Calibrations

To Order

Model No.	Description
TICK-1B	Calibration kit, thermocouple

Comes complete with TRCIII, TRP-J, TRP-K, TRP-T, TRP-E, GT-3404RL-CC, CA71-NIST plus CA71-PS, EXPP-()-20-25, banana plug, SL(**)-20, thermocouple reference table book and operator's manual,*

** J, K, T or E, 1 spool of each included with kit. ** CH=CHROMEGA®, AL=ALOMEGA®, IR=Iron, CO=Constantan, CP=Copper, 1 package of 20 lugs for each alloy included with kit.*

Ordering Example: TICK-1B, calibration kit plus TRP-R, Type R thermocouple reference probe.

Optional TRP Reference Probes (see omega.com)

Model No.	Thermocouple Calibration
TRP-S	S Pt10%Rh-Pt
TRP-R	R Pt13%Rh-Pt
TRP-B	B Pt30%Rh-Pt6%Rh
TRP-C	C W5%Re-W26%Re
TRP-D	D W3%Re-W25%Re
