

Compact Infrared Cameras With On-Board Visual Camera, Wi-Fi Connectivity, P-i-P and Bright LED Light

OSXL-E Series

- ✓ Superior Thermal Imaging—Up to 76,800 Pixels (320 x 240)
- ✓ Improved Digital Camera—3.1 Mega Pixel Resolution
- ✓ Wi-Fi Connectivity
- ✓ Scalable P-i-P and Thermal Fusion
- ✓ Instant Report in PDF Format
- ✓ Long Battery Life (Lasts Over 4 Hours)
- ✓ 8.9 cm (3.5") LCD Color Display
- ✓ Stores More Than 1000 JPEG Images

Presenting the best performance and value in compact thermal imaging cameras ever. Designed to fit beautifully into your IR inspection program, budget, and the palm of your hand.

OSXL-E series cameras offer superior thermal imaging with up to 76,800 pixels (320 x 240) for better long-range accuracy and the highest level of point and shoot camera IR resolution. A digital camera with 3.1 mega pixel resolution provides clearest visible light pictures in its class and includes bright LED lamp that doubles as a flashlight (2 mega pixel for OSXL-E30 model).

The large landscape touch screen is brighter than other brands; the OSXL-E series touch screen provides an intuitive interface that takes full advantage of the entire 8.9 cm (3.5") display for easy access to on-screen diagnostics tools. Wi-Fi Connectivity can send images and data to an iPhone®, iPad®, iPod touch®, or Android™ to share images and critical information quickly using FLIR Tools Mobile application.

OSXL-E series has accurate temperature measurements; unit's accuracy calibrated within 2% or $\pm 2^{\circ}\text{C}$ to meet the standard you can always trust FLIR to deliver. Scalable P-i-P (Picture-in-Picture) and thermal fusion with overlay thermal and visible images for easy location identification and clearer documentation. Multiple measurements can be done by adding up to 3 box areas and 3 moveable spots using the touch screen to gather more detailed temperature information (1 box area and 1 spot for OSXL-E30 model).

METERLINK™ feature will wirelessly transmit vital diagnostic data from clamp and moisture meters directly to the camera for annotating thermal images to further support findings and decisions. Annotation feature with add voice comments via bluetooth® headset and text notes from the touch screen keypad. An instant report can be generated in a professional PDF document directly from the camera right on-site (preloaded on OSXL-E60 only).

OSXL-E50 shown smaller than actual size.

Camera kits with PRO software bundle increase the power of the camera data by adding a powerful software for creating compelling and professional, fully customized, easy-to-interpret maintenance reports. Professional Report Wizard guides you step-by-step with instructions combining all IR inspection data, infrared and visual images, temperature measurements, and text notes, into a professional, easy-to-interpret maintenance report.

- 2.0 or 3.1 MP Digital Camera
- LED Lamp
- Laser Pointer

Why Thermal Imaging?

While spot infrared thermometers present only a single temperature at a single spot, these Thermal Imaging Cameras give you the whole picture, equal up to 76,800 spots! (OSXL-E60)

Thermal imaging is the most effective method for finding problems or potential problems in a variety of applications across many fields. If you are new to thermography and need a general purpose thermal imaging camera for troubleshooting, the OSXL-E Series is perfect for you! They are fully loaded with thermal imaging functions at a fraction of the price of a professional grade camera.

What the human eye sees

What an infrared thermometer sees

What a thermal imaging camera sees

Applications

Loose fuse connection

Electrical

Find hidden problems quickly, make timely repairs, prevent unscheduled shutdowns, and improve plant safety.

Overheating chain drive

Mechanical

Discover overheated bearings, linkages, and other components before they can interrupt your operations or create safety hazards.

Overloaded high voltage circuit breaker

Utility

Scan large areas and hundreds of connections quickly and efficiently to prevent unexpected service outages and lost revenues.

Moisture damage evident on floor and wall

Building Diagnostics

Even small areas of moisture intrusion can be easy to spot with an infrared camera. Locate and repair hidden water damage before a trickle turns into a flood.

Faulty steam trap

Energy Loss

Discover missing insulation, faulty HVAC systems, and other issues that waste energy and lots of money.

Destructive Pests

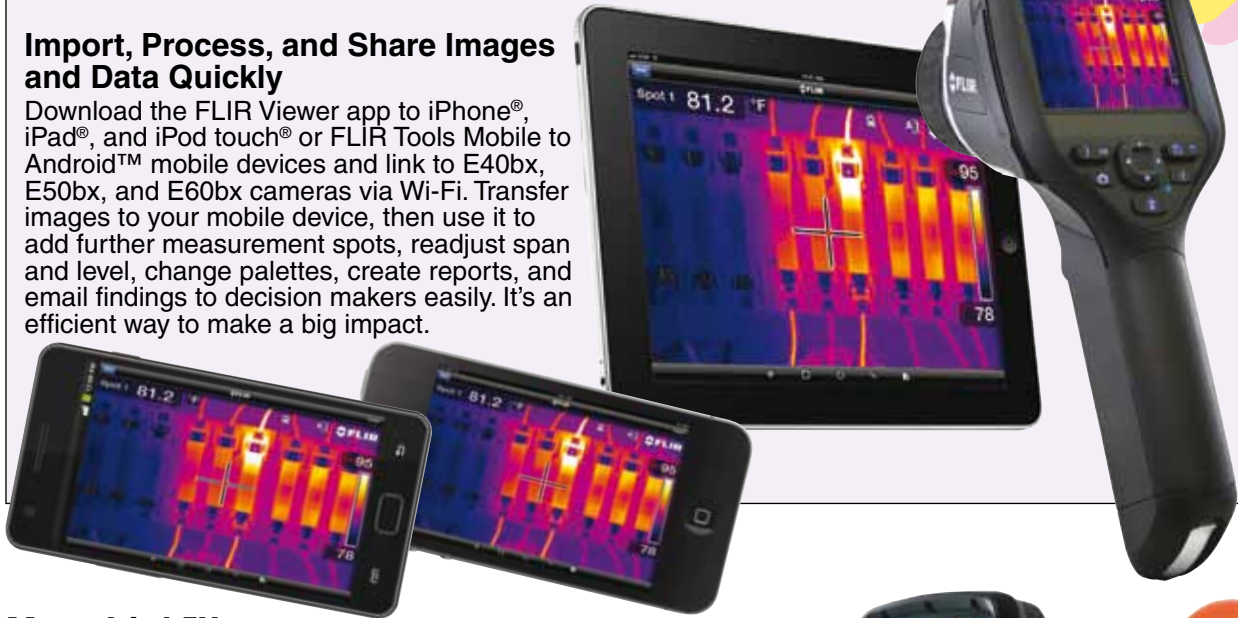

Hunt down burrowing and nesting insects and rodents before they eat customers out of house and home.

OSXL-E Series Thermal Imaging Cameras Feature Wi-Fi Connectivity to Mobile Devices!

Import, Process, and Share Images and Data Quickly

Download the FLIR Viewer app to iPhone®, iPad®, and iPod touch® or FLIR Tools Mobile to Android™ mobile devices and link to E40bx, E50bx, and E60bx cameras via Wi-Fi. Transfer images to your mobile device, then use it to add further measurement spots, readjust span and level, change palettes, create reports, and email findings to decision makers easily. It's an efficient way to make a big impact.

MeterLink™

Measure More than Temperature

Be sure you're getting critical electrical load readings so you make the right call. Quantify the severity of electrical problems with MeterLink-enabled clamp meters that use Bluetooth wireless communication to send data to the FLIR camera for annotation on stored thermal images. Contact FLIR to learn about other tools that connect with MeterLink.

MeterLink Helps Thermographers:

- Quantify Electrical Problems in Reports
- Add Detail to Load Imbalance Diagnostics
- Document Energy-Consumption Data
- Improve Documentation of Moisture Detection

MeterLink is a patented technology only available with compatible FLIR cameras.

InstantReport

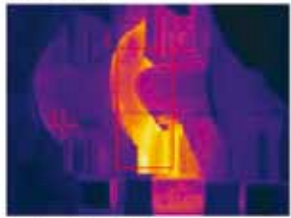

Generated Directly from Your Camera

Create professional reports on board your camera with InstantReport. FLIR's analysis software has always offered professional results and been easy to use. Now create reports without a PC!

InstantReport includes thermal and visual images along with your measurement tools and text & sketch annotations in a standard PDF document that's easy to share right from the touchscreen.

Which OSXL-E Series Camera is Right for You?

Maybe you're simply looking to replace your old infrared thermometer with a serious thermal imaging tool that can show you so much more and collect reliable temperature data. Or perhaps you need a thermal camera that gives you a wider view for scanning larger areas in finer detail. Whatever your inspections call for, OSXL-E series offers a very practical solution.

Reporter Pro
Extra Reporting Power for Busy Professional Thermographers
 FLIR Reporter PRO equips you with everything you need to customize a distinctive optional look and generate reports as quickly as possible that stand out with greater credibility. Design your templates in Microsoft Word®, drag-and-drop images, and generate multi-page reports automatically. Import all of your measurements, Delta T analysis, or personal formulas – even load your imagery and report data into Excel and PowerPoint!

Accessories

| Model No. | Description |
|--------------------|--|
| T197752 | Spare L-ion rechargeable battery |
| T910814 | Spare AC adaptor charger (110 to 240V, US plug) |
| 1196497 | Cigarette lighter adaptor kit, 12 Vdc (1.2 m cable) |
| T198125 | 2-bay battery charger including power supply (multi plugs) |
| OSXL-REPORTER8.5SW | FLIR reporter professional analysis software |
| OSXL-BUILDIRSW | BuildIR software package |
| 1196961 | 15° telephoto lens |
| 1196960 | 45° wide angle lens |

Comes complete with memory card with adaptor, li-ion rechargeable battery, power supply, USB cable, video cable, hand strap, camera lens cap, hard carrying case, standard FLIR tools software CD-ROM and full operating manual on disk.
Ordering Example: OSXL-E40, FLIR E40 thermal imaging infrared camera (160 x 120).

More than 100,000 Products Available!

• Temperature

Calibrators, Connectors, General Test and Measurement Instruments, Handheld Instruments for Temperature Measurement, Ice Point References, Indicating Labels, Crayons, Cements and Lacquers, Infrared Temperature Measurement Instruments, Recorders, Relative Humidity Measurement Instruments, PT100 Probes, PT100 Elements, Temperature & Process Meters, Timers and Counters, Temperature and Process Controllers and Power Switching Devices, Thermistor Elements, Probes and Assemblies, Thermocouples, Thermowells and Head and Well Assemblies, Transmitters, Thermocouple Wire, RTD Probes

• Flow and Level

Air Velocity Indicators, Doppler Flowmeters, Level Measurement, Magnetic Flowmeters, Mass Flowmeters, Pitot Tubes, Pumps, Rotameters, Turbine and Paddle Wheel Flowmeters, Ultrasonic Flowmeters, Valves, Variable Area Flowmeters, Vortex Shedding Flowmeters

• pH and Conductivity

Conductivity Instrumentation, Dissolved Oxygen Instrumentation, Environmental Instrumentation, pH Electrodes and Instruments, Water and Soil Analysis Instrumentation

• Data Acquisition

Communication Products and Converters, Data Acquisition and Analysis Software, Data Loggers Plug-in Cards, Signal Conditioners, USB, RS232, RS485, Ethernet and Parallel Port Data Acquisition Systems, Wireless Transmitters and Receivers

• Pressure, Strain and Force

Displacement Transducers, Dynamic Measurement Force Sensors, Instrumentation for Pressure and Strain Measurements, Load Cells, Pressure Gauges, Pressure Reference Section, Pressure Switches, Pressure Transducers, Proximity Transducers, Regulators, Pressure Transmitters, Strain Gauges, Torque Transducers, Valves

• Heaters

Band Heaters, Cartridge Heaters, Circulation Heaters, Comfort Heaters, Controllers, Meters and Switching Devices, Flexible Heaters, General Test and Measurement Instruments, Heater Hook-up Wire, Heating Cable Systems, Immersion Heaters, Process Air and Duct, Heaters, Radiant Heaters, Strip Heaters, Tubular Heaters
